# Wet'suwet'en, Unist'ot'en and Coastal GasLink

44 key historical facts stated in Jeff Kisling's blog posts on this topic, each checked against an outside source.

# Wet'suwet'en, Unist'ot'en and Coastal GasLink

From January 2020 on, many posts follow the Wet'suwet'en hereditary chiefs' opposition to the Coastal GasLink pipeline. They cover the Unist'ot'en camp and healing centre, the Gidimt'en checkpoint, the RCMP raids of 2019, 2020 and 2021, and the 2020 solidarity rail and port blockades across Canada. They also discuss Delgamuukw, the 2020 Memorandum of Understanding, UN CERD statements, and the later prosecutions and court findings about land defenders and journalists.

**44 facts** checked against outside sources, 3 of them corrected (the posts had a detail slightly wrong; the corrected version is shown). Each fact lists the source that confirms it and the posts that state it. The wording is a plain summary, not a quotation from the posts.

## Facts

**1. 1984-10-24**

On October 24, 1984, 35 Gitxsan and 13 Wet'suwet'en hereditary chiefs filed the Delgamuukw (Delgamuukw-Gisday'wa) claim in the B.C. Supreme Court, seeking recognition of title and jurisdiction over about 58,000 square kilometres of northwestern British Columbia.

> ***Note:*** *One post gives the area as 55,000 km2; most posts give 58,000 km2.*

**2. 1997-12-11 (corrected)**

The Supreme Court of Canada decided Delgamuukw v. British Columbia on December 11, 1997. It held that Aboriginal title is an existing right protected by section 35 of the Constitution Act, 1982, rejected the finding that it had been extinguished, and set out a test for proving title, but it ordered a new trial rather than ruling on title to the specific lands; that second trial never took place.

> ***Correction:*** *Several posts say the Supreme Court 'confirmed' or 'proved' Wet'suwet'en and Gitxsan title to their territories; the Court laid down the legal framework and ordered a new trial, without itself deciding title to the claimed lands.*
